

21 Things You Didn't Know You Can Recycle

Garbage. Americans produce more and more of it every year, when we need to be producing less. Even the most waste-conscious among us can feel overwhelmed by the amount of household waste that goes beyond what municipal recyclers and compost bins can handle. This list explains how to get serious about the three **R's: Reducing, Reusing, and Recycling** thereby diverting more waste away from landfills.

1. **Appliances:** Goodwill accepts working appliances, www.goodwill.org, or you can contact the Steel Recycling Institute to recycle them. 800/YES-1-CAN, www.recycle-steel.org.
2. **Batteries:** Rechargeables and single-use: Battery Solutions, 734/467-9110, www.batteryrecycling.com.
3. **Cardboard boxes:** Contact local nonprofits and women's shelters to see if they can use them. Or, offer up used cardboard boxes at your local Freecycle.org listserv or on Craigslist.org for others who may need them for moving or storage. If your workplace collects at least 100 boxes or more each month, UsedCardboardBoxes.com accepts them for resale.
4. **CDs/DVDs/Game Disks:** Send scratched music or computer CDs, DVDs, and PlayStation or Nintendo video game disks to AuralTech for refinishing, and they'll work like new: 888/454-3223, www.auraltech.com.

Donate wearable women's business clothing to Dress for Success, which gives them to low-income women as they search for jobs: 212/532-1922, www.dressforsuccess.org. Offer unwearable clothes and towels to local animal boarding and shelter facilities, which often use them as pet bedding.
